

SOUTHERN
MIDLANDS
COUNCIL

To whom it may concern

It is with the utmost confidence that I wish to support the aspirations of the promoters to establish Albie House to support youth at risk of suicide.

The community is becoming alarmed at the high incidence of youth suicide occurring throughout Tasmania and any endeavours to address this increasing social problem is to be encouraged and supported.

Albie House would provide a focus on the extremely important area of youth suicide where there is an alarming increase in this demographic at risk of suicide.

I fully support the concept of Albie House and encourage all levels of Government and the general community to support this most worthy project.

Clr Tony Bisdee O.A.M
